THE MINING RECORD COMPANY

— HOWELL INTERNATIONAL ENTERPRISES, LLC

“The Voice of the Mining Industry”

For 134 years, The Mining Record has been based in Colorado. The Mining Record was Denver’s Daily Newspaper created during the Gold Rush Mining Boom. It quickly became the leading mining news publication. The Mining Record experienced continued growth with the expansion of mining. Once a designated news source for the Western States, it quickly expanded throughout the entire United States and Internationally. Today, The Mining Record is the most sought out mining publication for news and services.

THE MINING RECORD NEWSPAPER - The Mining Record has been in continuous publication for 134 years and is recognized as the industry's leading newspaper. The Mining Record has an international readership. It focuses on timely and credible news reporting on exploration, discovery, development, production, joint ventures, acquisitions, operating results, legislation, government reports and metals prices. Its readership is concentrated in the mining industry proper - mining companies, engineers, geologists, mine supervisory personnel, company officers and individuals engaged in exploration and large or small mine production. Every year, The Mining Record devotes an issue to the major conventions in the western U.S., Canada and Latin America. The newspaper is available monthly (print media) or daily (online).

PRODUCTS PRODUCED BY THE MINING RECORD COMPANY AND HIE, LLC

THE LATIN AMERICA MINING RECORD NEWSPAPER - The Latin America Mining Record publication was created in 1994. It quickly became a staple in Latin America mining news coverage. Editorial on exploration, discovery, development, production, joint ventures, acquisitions, operating results and Latin American currencies. An incorporated news publication of The Mining Record.

WESTERN MINING BOUND EDITION - Mining Companies and Mines sections of the Western Mining Directory are available in the bound printed edition. These sections list over 230 mining companies, 180 mines and 360 projects and properties. Mining Companies alphabetical section contains corporate officers, addresses of corporate offices, regional offices, exploration offices and mines. Mine information includes names of managers, location, open pit, underground, type of recovery, product, operator, reserves, grade, mining rate and number of employees. The second section lists mining companies geographically. The third section lists mines alphabetically with complete mine information and the fourth section lists mines geographically with complete mine information. The fourth and fifth sections list both alphabetically and by service, the Suppliers to the Industry. **The Directory is provided to Mining Companies, Mines and Operations listed. This puts our Advertisers services in front of the decision makers and end users.** The Directory is a great companion to the Western States Mines Map. The Directory covers gold, silver, platinum, copper, molybdenum and coal mines in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

WESTERN MINING DIRECTORY FLASH DRIVE (or CD) - Mining Companies and Mines sections of the Western Mining Directory are available in interactive PDF format with direct links. These sections list over 230 mining companies, 180 mines and 360 projects and properties. Mining Companies alphabetical section contains corporate officers, addresses of corporate offices, regional offices, exploration offices and mines. Mine information includes names of managers, location, open pit, underground, type of recovery, product, operator, reserves, grade, mining rate and number of employees. The second section lists mining companies geographically. The third section lists mines alphabetically with complete mine information and the fourth section lists mines geographically with complete mine information. The Directory further contains information on: Suppliers to the Industry. The CD contains a Contents file which enables you to reference each section. In addition the CD contains no security settings, allowing you to copy and paste text from the CD into your word processing documents. You are therefore able to add your own information to the data found on the CD and customize the data base to fit your needs. The Directory is a great companion to the Western States Mines Map. The Directory covers gold, silver, platinum, copper, molybdenum and coal mines in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

WESTERN STATES MINES MAP - This edition shows locations of over 130 gold, silver, platinum, copper, molybdenum and coal mines in the eleven western United States. For each mine, the Map lists the state and county, its reserve, grade, mine operator and whether it is underground or open pit. The Map is 26.75" x 40" in size and is printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

MINES OF SOUTH AMERICA MAP - This edition lists and shows locations of approximately 200 precious and base-metal mines and projects that are in operation, development, feasibility or construction. It identifies the owner and/or operator and states the current level of activity. The Map is 30" x 36" and is printed in contrasting colors on enamel stock for increased legibility.

MEXICO PRECIOUS & BASE METALS MAP - This edition lists and locates over 200 operating underground and open pit mines, as well as development and exploration projects for precious and base metals. It identifies the owner, operator, product and status of activity for each property. The Map is 30" x 42" and printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

MINES OF AUSTRALIA MAP - The Australia Mines Map lists and locates 275 precious metals, base metals, uranium and coal mines that are in operation, under construction, development or undergoing feasibility. It identifies the mine's owner, minerals produced, the current level of activity and whether the mine is surface or underground. The map is 30" x 42", printed in contrasting colors for increased legibility, on enamel stock

OPERATING MINES IN CANADA MAP - The map, Operating Mines in Canada, lists and locates 86 precious, base metals, uranium and coal mines that are in operation. It identifies the mine's owner, mineral products produced and if it is a surface or underground operation. The map is 30" x 33", printed in contrasting colors for increased legibility, on enamel stock.

SOCIAL MEDIA AVENUES (FACEBOOK, TWITTER, LINKEDIN, ETC.): While our company does have registered accounts, our users security is top priority. Our Facebook, Twitter, and LinkedIn pages are designed with no interaction allowed at this point. Consumer Protection Agency reported that scams on social media skyrocketed by 160 percent across Facebook, Twitter and LinkedIn in 2021. And the number is likely to continue climbing as more cyber crooks see social as a fruitful target. Our users and clients security will not be compromised with these media outlets at this time. Our web security service for www.miningrecord.com site provides our users information for the industry with peace of mind. www.miningrecord.com is universal with complete availability through desktop, laptop and all mobile devices. It will remain our focal form for online media access to our users and clients.

www.miningrecord.com was created in 1994. With a foothold in the industry at the early stages of the Internet Information Boom, www.miningrecord.com is a daily source for the industry. With this came demand for representation from industry mining companies and suppliers. www.miningrecord.com limits the number of advertisers on it's site, so as not to take away from it's information directed format. www.miningrecord.com has become another valued advertising tool for the industries leading companies through it's Executive Industry Member, Tile Ads and the newly introduced Suppliers Section. Industry companies use both the publications and online medium together, which has generated an increase in volume - that sustains any cycle the industry may experience. The numbers have shown to keep business at a constant.

TRADITION OF EXCELLENCE "Always do more than is required of you." – George Patton

The founders of HIE, have decades of industry service. The Mining Record and associated companies continue to provide the highest quality products available. For 134 years the standard of excellence is the company's cornerstone. All personnel uphold this standard day in, and day out.

While awards and appreciations are an honor for our executives, it is the relationships that truly represent The Mining Record and the core foundation it has maintained since 1889. "The Voice Of The Mining Industry".

Over the years The Mining Record established itself as the most sought after publication for mining news and company advertising. The company has employed industry professionals, and students fresh out of mining schools to assist in their careers. Many of these fresh new faces are now executives in the industry. The Mining Record continues to be sought out for promoting and building the leading conferences.

EDITORIAL 2023 - THE MINING RECORD

The Mining Record has been in continuous publication for 134 years and is recognized as the industry's leading newspaper. The Mining Record has an international readership. It focuses on timely and credible news reporting on exploration, discovery, development, production, joint ventures, acquisitions, operating results, legislation, government reports and metals prices. Its readership is concentrated in the mining industry proper - mining companies, engineers, geologists, mine supervisory personnel, company officers and individuals engaged in exploration and large or small mine production.

Every year, The Mining Record devotes issues to the major conventions in the western U.S., Canada and Latin America. The newspaper is available monthly (print media, digitally) or daily (online).

Editorial Submissions accepted from all industry related service providers, operators and mining companies.

Note: Due to the amount of editorial received for immediate publication, The Mining Record does have to prioritize based on predetermined guidelines.

Advertisers submitting editorial have the option of placing within a page of their position or can be in another location of the publication.

Editorial Per Issue:

Industry News: Feature Story and Interior News is the most recent available in the industry. Based on location of major events, the focus on that geographic area will be highlighted when possible. The articles content consist of: Exploration, discovery, development, production, joint ventures, acquisitions, operating results, legislation, government reports and metals prices.

Advertisers and Service Companies: Announcements and Product Releases must be no longer than 1000 words to assure text placement fits layout. Photos can be provided and will be included if page content allows. Photos must be provided in PDF or JPEG format - minimum of 300 resolution.

Editorial can be submitted to: editor@miningrecord.com, fax: 303.663.7823, mail: The Mining Record, P.O. Box 1630, Castle Rock, CO 80104

Editorial with Advertisement can be submitted to: advertising@miningrecord.com

Editorial Deadline: The Mining Record requests that editorial be submitted 2 weeks prior to the deadline of the publication as shown on the Schedule and Rates. Should you need additional time for editorial submission, please contact our editorial department - editor@miningrecord.com, 800.441.4748, or 303.663.7820.

Products and/or Services advertised in The Mining Record are not endorsed by The Mining Record. Publisher reserves the right to refuse advertising that is competitive with his publications or which, in the publisher's opinion, does not meet with the format of mining publications.

2023 WESTERN MINING DIRECTORY

The Western Mining Directory has been published for 36 years. The directory will list over 225 mining companies, 180 mines and 280 projects and properties. The Mining Company section contains telephone numbers, websites and addresses for corporate, regional, exploration and mine offices, and all principle officers. Mine information includes names of managers, its location, and whether it is open pit or underground, its type of recovery, products, operator, grade, mining rate and number of employees.

Controlled Marketing

The directory is unique in that a complimentary edition is mailed to all directory-listed mining companies and personnel at their mine sites.

The Western Mining Directory will provide maximum exposure for its advertisers to the decision makers of the industry for an entire year. The Directory occupies a vital niche in the information marketplace for the entire industry and is thus a prime venue for representing your company's services and products to the industry.

MINING INDUSTRY DETAILED MAPS

- CORPORATE LOGO DISPLAY PLACEMENT -

HOWELL INTERNATIONAL ENTERPRISES, LLC

WESTERN STATES MINES MAP

This edition shows locations of over 130 gold, silver, platinum, copper, molybdenum and coal mines in the eleven western United States.

For each mine, the Map lists the state and county, its reserve, grade, mine operator and whether it is underground or open pit.

The Map is 26.75" x 40" in size and is printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

SOUTH AMERICA MINES MAP

This edition lists and shows locations of approximately 260 precious and base-metal mines and projects that are in operation, development, feasibility or construction.

It identifies the owner and/or operator and states the current level of activity.

The Map is 30" x 36" and is printed in contrasting colors on enamel stock for increased legibility.

MEXICO PRECIOUS METALS MINES MAP

This edition lists and locates over 210 operating underground and open pit mines, as well as development and exploration projects for precious and base metals. It identifies the owner, operator, product and status of activity for each property.

The Map is 30" x 42" and printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

MINES OF AUSTRALIA MAP

The Australia Mines Map lists and locates 275 precious metals, base metals, uranium and coal mines that are in operation, under construction, development or undergoing feasibility. It identifies the mine's owner, minerals produced, the current level of activity and whether the mine is surface or underground.

The map is 30" x 42", printed in contrasting colors for increased legibility, on enamel stock.

OPERATING MINES IN CANADA MAP

The map, Operating Mines in Canada, lists and locates 90 precious, base metals, uranium and coal mines that are in operation.

It identifies the mine's owner, mineral products produced and if it is a surface or underground operation.

The map is 30" x 33", printed in contrasting colors for increased legibility, on enamel stock.

Corporate Logo Display Placement. This is a first right of refusal placement. Once you have it, it is yours until you decide for it not to be. One year minimum commitment with one year advance placement, and one year advance notice of discontinuation (Example: January 2019 cancellation notice for 2020. Your logos will appear all of 2019). In addition to the maps we provide you for sending to your target clients, we sell these at all the conferences, phone orders and online. These maps are also updated 4 times a year. Your logo is always on them. Mining companies receive the maps as well for updates and reviews.

Reservations Are Taken In Advance. Contact: HIE, LLC., 800-441-4748 • 303-663-7820, advertising@miningrecord.com

Vulcan Materials Reported Key Markets Price Growth

Shipments were higher in Georgia, Illinois, Tennessee and Texas. U.S. is an important base, all of the Company's key markets.

Denver, Colorado, USA — Vulcan Materials Company (NYSE: VMC) reported strong growth in aggregate shipments and prices in its key markets during the third quarter of 2020. The company's aggregate shipments were up 10% compared to the same period last year, driven by strong demand in the construction and infrastructure sectors. Prices for aggregate in the U.S. increased by 5% in the third quarter, reflecting tight supply and strong demand. Vulcan Materials is well-positioned to meet the growing demand for aggregate in the U.S. market, with a strong focus on operational efficiency and customer service. The company's aggregate shipments were up 10% compared to the same period last year, driven by strong demand in the construction and infrastructure sectors. Prices for aggregate in the U.S. increased by 5% in the third quarter, reflecting tight supply and strong demand. Vulcan Materials is well-positioned to meet the growing demand for aggregate in the U.S. market, with a strong focus on operational efficiency and customer service.

BNSF Preliminary Work Continues For Third Main Line

The project is the largest in the BNSF system and is expected to be completed by the end of 2020. The project will improve the efficiency and capacity of the BNSF system.

Denver, Colorado, USA — BNSF Railway is continuing preliminary work on its Third Main Line project, which is a major infrastructure initiative. The project involves upgrading the existing main line to a double-track main line, which will improve the efficiency and capacity of the BNSF system. The project is the largest in the BNSF system and is expected to be completed by the end of 2020. The project will improve the efficiency and capacity of the BNSF system. BNSF Railway is committed to providing reliable and efficient rail service to its customers, and this project is a key part of that commitment. The project will improve the efficiency and capacity of the BNSF system, which will benefit both BNSF and its customers. The project is a major infrastructure initiative that will have a long-term impact on the BNSF system.

INFRASTRUCTURE AND THE ENVIRONMENT

A PUBLICATION OF GROWTH, ADVANCEMENT, AND TECHNOLOGY WHILE CONSCIOUSLY WORKING WITH THE ENVIRONMENT.

Over \$220 Million In Federal Grants For America's Ports

The grants are part of a larger effort to improve the infrastructure of America's ports and support economic growth. The grants will be used for a variety of projects, including the construction of new piers and the upgrading of existing infrastructure.

Denver, Colorado, USA — The U.S. Department of Transportation has announced a new round of federal grants for America's ports, totaling over \$220 million. The grants are part of a larger effort to improve the infrastructure of America's ports and support economic growth. The grants will be used for a variety of projects, including the construction of new piers and the upgrading of existing infrastructure. The grants are a key part of the U.S. Department of Transportation's commitment to improving the infrastructure of America's ports. The grants will improve the efficiency and capacity of America's ports, which will benefit both the ports and the economy. The grants are a major infrastructure initiative that will have a long-term impact on America's ports.
