THE MINING RECORD COMPANY

— HOWELL INTERNATIONAL ENTERPRISES, LLC

“The Voice of the Mining Industry”

For 135 years, The Mining Record has been based in Colorado. The Mining Record was Denver's Daily Newspaper created during the Gold Rush Mining Boom. It quickly became the leading mining news publication. The Mining Record experienced continued growth with the expansion of mining. Once a designated news source for the Western States, it quickly expanded throughout the entire United States and Internationally. Today, The Mining Record is the most sought out mining publication for news and services.

THE MINING RECORD NEWSPAPER - The Mining Record has been in continuous publication for 135 years and is recognized as the industry's leading newspaper. The Mining Record has an international readership. It focuses on timely and credible news reporting on exploration, discovery, development, production, joint ventures, acquisitions, operating results, legislation, government reports and metals prices. Its readership is concentrated in the mining industry proper - mining companies, engineers, geologists, mine supervisory personnel, company officers and individuals engaged in exploration and large or small mine production. Every year, The Mining Record devotes an issue to the major conventions in the western U.S., Canada and Latin America. The newspaper is available monthly (print media) or daily (online).

PRODUCTS PRODUCED BY THE MINING RECORD COMPANY AND HIE, LLC

THE LATIN AMERICA MINING RECORD NEWSPAPER - The Latin America Mining Record publication was created in 1994. It quickly became a staple in Latin America mining news coverage. Editorial on exploration, discovery, development, production, joint ventures, acquisitions, operating results and Latin American currencies. An incorporated news publication of The Mining Record.

WESTERN MINING 2024 BOUND EDITION - Mining Companies and Mines sections of the Western Mining Directory are available in the bound printed edition. These sections list mining companies, mines, projects and properties. Mining Companies alphabetical section contains corporate officers, addresses of corporate offices, regional offices, exploration offices and mines. Mine information includes names of managers, location, open pit, underground, type of recovery, product, operator, reserves, grade, mining rate and number of employees. The second section lists mining companies geographically. The third section lists mines alphabetically with complete mine information and the fourth section lists mines geographically with complete mine information. The fourth and fifth sections list both alphabetically and by service, the Suppliers to the Industry. **The Directory is provided to Mining Companies, Mines and Operations listed. This puts our Advertisers services in front of the decision makers and end users.** The Directory is a great companion to the Western States Mines Map. The Directory covers gold, silver, platinum, copper, molybdenum and coal mines in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

WESTERN MINING DIRECTORY FLASH-THUMB DRIVE - Mining Companies and Mines sections of the Western Mining Directory are available in interactive PDF format with direct links. These sections list mining companies, mines, projects and properties. Mining Companies alphabetical section contains corporate officers, addresses of corporate offices, regional offices, exploration offices and mines. Mine information includes names of managers, location, open pit, underground, type of recovery, product, operator, reserves, grade, mining rate and number of employees. The second section lists mining companies geographically. The third section lists mines alphabetically with complete mine information and the fourth section lists mines geographically with complete mine information. The Directory further contains information on: Suppliers to the Industry. The file contains a Contents file which enables you to reference each section. In addition there are no security settings, allowing you to copy and paste text from the file into your word processing documents. You are therefore able to add your own information to the data found on the directory and customize the data base to fit your needs. The Directory is a great companion to the Western States Mines Map. The Directory covers gold, silver, platinum, copper, molybdenum and coal mines in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

WESTERN STATES MINES MAP - This edition shows locations of gold, silver, platinum, copper, molybdenum, lithium, cobalt and coal mines in the eleven western United States. For each mine, the Map lists the state and county, its reserve, grade, mine operator and whether it is underground or open pit. The Map is 26.75" x 40" in size and is printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

MINES OF SOUTH AMERICA MAP - This edition lists and shows locations of precious and base-metal mines and projects that are in operation, development, feasibility or construction. It identifies the owner and/or operator and states the current level of activity. The Map is 30" x 36" and is printed in contrasting colors on enamel stock for increased legibility.

MEXICO PRECIOUS & BASE METALS MAP - This edition lists and locates operating underground and open pit mines, as well as development and exploration projects for precious and base metals. It identifies the owner, operator, product and status of activity for each property. The Map is 30" x 42" and printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

MINES OF AUSTRALIA MAP - The Australia Mines Map lists and locates precious metals, base metals, uranium and coal mines that are in operation, under construction, development or undergoing feasibility. It identifies the mine's owner, minerals produced, the current level of activity and whether the mine is surface or underground. The map is 30" x 42", printed in contrasting colors for increased legibility, on enamel stock

OPERATING MINES IN CANADA MAP - The map, Operating Mines in Canada, lists and locates precious, base metals, lithium, uranium and coal mines that are in operation. It identifies the mine's owner, mineral products produced and if it is a surface or underground operation. The map is 30" x 33", printed in contrasting colors for increased legibility, on enamel stock.

SOCIAL MEDIA AVENUES (FACEBOOK, TWITTER, LINKEDIN, ETC.): While our company does have registered accounts, our users security is top priority. Our Facebook, Twitter, and LinkedIn pages are designed with no interaction allowed at this point. Consumer Protection Agency reported that scams continue on social media skyrocketed by 160 percent across Facebook, Twitter and LinkedIn. And the number is likely to continue climbing as more cyber crooks see social as a fruitful target. Our users and clients security will not be compromised with these media outlets at this time. Our web security service for www.miningrecord.com site provides our users information for the industry with peace of mind. www.miningrecord.com is universal with complete availability through desktop, laptop and all mobile devices. It will remain our focal form for online media access to our users and clients.

www.miningrecord.com was created in 1994. With a foothold in the industry at the early stages of the Internet Information Boom, www.miningrecord.com is a daily source for the industry. With this came demand for representation from industry mining companies and suppliers. www.miningrecord.com limits the number of advertisers on it's site, so as not to take away from it's information directed format. www.miningrecord.com has become another valued advertising tool for the industries leading companies through it's Executive Industry Member, Tile Ads and the newly introduced Suppliers Section. Industry companies use both the publications and online medium together, which has generated an increase in volume - that sustains any cycle the industry may experience. The numbers have shown to keep business at a constant.

TRADITION OF EXCELLENCE "Always do more than is required of you." – George Patton

The founders of HIE, have decades of industry service. The Mining Record and associated companies continue to provide the highest quality products available. For 134 years the standard of excellence is the company's cornerstone. All personnel uphold this standard day in, and day out.

While awards and appreciations are an honor for our executives, it is the relationships that truly represent The Mining Record and the core foundation it has maintained since 1889. "The Voice Of The Mining Industry".

Over the years The Mining Record established itself as the most sought after publication for mining news and company advertising. The company has employed industry professionals, and students fresh out of mining schools to assist in their careers. Many of these fresh new faces are now executives in the industry. The Mining Record continues to be sought out for promoting and building the leading conferences.

EDITORIAL 2024 - THE MINING RECORD

The Mining Record has been in continuous publication for 135 years and is recognized as the industry's leading newspaper. The Mining Record has an international readership. It focuses on timely and credible news reporting on exploration, discovery, development, production, joint ventures, acquisitions, operating results, legislation, government reports and metals prices. Its readership is concentrated in the mining industry proper - mining companies, engineers, geologists, mine supervisory personnel, company officers and individuals engaged in exploration and large or small mine production.

Every year, The Mining Record devotes issues to the major conventions in the western U.S., Canada and Latin America. The newspaper is available monthly (print media, digitally) or daily (online).

Editorial Submissions accepted from all industry related service providers, operators and mining companies.

Note: Due to the amount of editorial received for immediate publication, The Mining Record does have to prioritize based on predetermined guidelines.

Advertisers submitting editorial have the option of placing within a page of their position or can be in another location of the publication.

Editorial Per Issue:

Industry News: Feature Story and Interior News is the most recent available in the industry. Based on location of major events, the focus on that geographic area will be highlighted when possible. The articles content consist of: Exploration, discovery, development, production, joint ventures, acquisitions, operating results, legislation, government reports and metals prices.

Advertisers and Service Companies: Announcements and Product Releases must be no longer than 1000 words to assure text placement fits layout. Photos can be provided and will be included if page content allows. Photos must be provided in PDF or JPEG format - minimum of 300 resolution.

Editorial can be submitted to: editor@miningrecord.com, fax: 303.663.7823, mail: The Mining Record, P.O. Box 1630, Castle Rock, CO 80104

Editorial with Advertisement can be submitted to: advertising@miningrecord.com

Editorial Deadline: The Mining Record requests that editorial be submitted 2 weeks prior to the deadline of the publication as shown on the Schedule and Rates. Should you need additional time for editorial submission, please contact our editorial department - editor@miningrecord.com, 800.441.4748, or 303.663.7820.

Products and/or Services advertised in The Mining Record are not endorsed by The Mining Record. Publisher reserves the right to refuse advertising that is competitive with his publications or which, in the publisher's opinion, does not meet with the format of mining publications.

2024/25 WESTERN MINING DIRECTORY

The Western Mining Directory has been published for 44 years. The directory will list mining companies, mines, projects and properties. The Mining Company section contains telephone numbers, websites and addresses for corporate, regional, exploration and mine offices, and all principle officers. Mine information includes names of managers, its location, and whether it is open pit or underground, its type of recovery, products, operator, grade, mining rate and number of employees.

Controlled Marketing

The directory is unique in that a complimentary edition is mailed to all directory-listed mining companies and personnel at their mine sites.

The Western Mining Directory will provide maximum exposure for its advertisers to the decision makers of the industry for an entire year. The Directory occupies a vital niche in the information marketplace for the entire industry and is thus a prime venue for representing your company's services and products to the industry.

MINING INDUSTRY DETAILED MAPS

- CORPORATE LOGO DISPLAY PLACEMENT -

HOWELL INTERNATIONAL ENTERPRISES, LLC

WESTERN STATES MINES MAP

This edition shows locations of over 130 gold, silver, platinum, copper, molybdenum and coal mines in the eleven western United States.

For each mine, the Map lists the state and county, its reserve, grade, mine operator and whether it is underground or open pit.

The Map is 26.75" x 40" in size and is printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

SOUTH AMERICA MINES MAP

This edition lists and shows locations of approximately 260 precious and base-metal mines and projects that are in operation, development, feasibility or construction.

It identifies the owner and/or operator and states the current level of activity.

The Map is 30" x 36" and is printed in contrasting colors on enamel stock for increased legibility.

MEXICO PRECIOUS METALS MINES MAP

This edition lists and locates over 210 operating underground and open pit mines, as well as development and exploration projects for precious and base metals. It identifies the owner, operator, product and status of activity for each property.

The Map is 30" x 42" and printed in contrasting colors on enamel stock for increased legibility showing states, capitols and major highways.

MINES OF AUSTRALIA MAP

The Australia Mines Map lists and locates 275 precious metals, base metals, uranium and coal mines that are in operation, under construction, development or undergoing feasibility. It identifies the mine's owner, minerals produced, the current level of activity and whether the mine is surface or underground.

The map is 30" x 42", printed in contrasting colors for increased legibility, on enamel stock.

OPERATING MINES IN CANADA MAP

The map, Operating Mines in Canada, lists and locates 90 precious, base metals, uranium and coal mines that are in operation.

It identifies the mine's owner, mineral products produced and if it is a surface or underground operation.

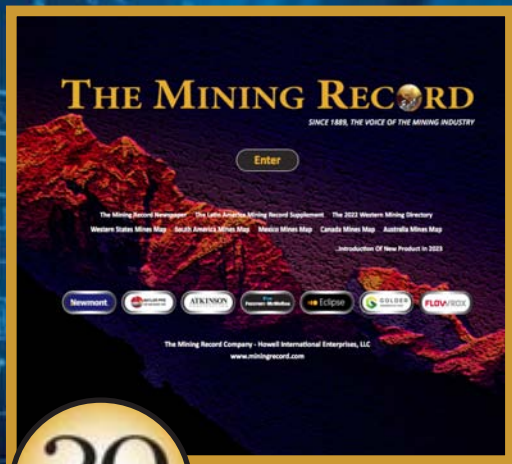

The map is 30" x 33", printed in contrasting colors for increased legibility, on enamel stock.

Corporate Logo Display Placement. This is a first right of refusal placement. Once you have it, it is yours until you decide for it not to be. One year minimum commitment with one year advance placement, and one year advance notice of discontinuation (Example: January 2019 cancellation notice for 2020. Your logos will appear all of 2019). In addition to the maps we provide you for sending to your target clients, we sell these at all the conferences, phone orders and online. These maps are also updated 4 times a year. Your logo is always on them. Mining companies receive the maps as well for updates and reviews.

Reservations Are Taken In Advance. Contact: HIE, LLC., 800-441-4748 • 303-663-7820, advertising@miningrecord.com

THE MINING RECORD & HOWELL INTERNATIONAL ENTERPRISES, LLC

NEW INDUSTRY SPECIFIC PUBLICATIONS

Revue Pédagogie 1984 Full Edition 1984 Volume 1, Number 1 Education - www.education.ca

EXPLANATION: THIS REPORT, INTERVIEWED, PROJECT TEAM, JOINT VENTURE, ACTING/ASSISTANT, OPERATING, BUREAU OF, REGULATORY, GOVERNMENT, MARKETS AND ACCOUNTS, PRICE, CONCENTRATION ON THE, MANUFACTURE, EXISTENT, PROPOSED, MANUFACTURING COMPANIES, STANDARDS, LABOR/INTENSITY, PERFORMANCE, PERSONNELS, COMPANY, CUSTOMER AND PRODUCTION, ACTING/ASSISTANT, OPERATING, AND, LARGE OR SMALL, PROJECT TEAM.

Vulcan Materials Reported Key Markets Price Growth

Shipments were higher in Georgia, Illinois, Tennessee and Texas. On a unit-adjusted basis, all of the Company's key markets reported year-over-year price growth. Actions taken across the Company's base that 3M has taken reduced cash spending and controlled inventory in areas most impacted by slower in-place orders.

From widespread growth in pricing and effective cost controls, second quarter aggregate shipments were 2 percent lower than the prior year's second quarter. Shipping patterns varied widely among the Company's markets. A result of economic uncertainty and low fuel prices was generally supported by healthy backlog and our excellent customer service. Our market mix was strong. Key areas of industry inventory reflect the majority of a \$14 million earnings benefit from lower third fuel costs.

Airport segment gross profit was \$1.5 million, an improvement of \$1 million from the prior year. The year-over-year improvement was driven by higher material margins (due to gross loss cost of raw materials). Although airport volume in the second

Demand Trends Remain Strong For Martin Marietta In 2020

Demand Trends Remain Strong For Martin Marietta In 2020

Wald Nye, Chairman and CEO of Marine Maxima, noted, "We are proud to have conducted the first half of 2020 with the highest profitability and best safety performance in Marine Maxima's history. Our record performance underscores Marine Maxima's collective commitment to operational excellence and the dedication of our teams; plus as we navigate the uncertainties and economic headwinds presented by COVID-19,

The Company expanded consolidated gross margins by 208 basis points and delivered diluted EBITDA of \$407 million in the second quarter, demonstrating a strong commitment to improved unit management across the Building Materials business. We remain confident that our favorable pricing trends will continue, aided in part by the continued success of our locally-driven pricing strategy.

BNSF Preliminary Work Continues For Third Main Line

The project is the big ticket item in the \$80 million EPCIF plan to spend on capital projects in the state this year. About half of the money is aimed at refueling and other improvements on 1,000 miles of track and replacing 15 miles of rail and more than 150,000

Post-Tensioning Lugs (PTLs) are used to anchor the cables and bars and in a single working traffic lane. The PTLs are used to anchor the cables and bars in the concrete deck. The PTLs are used to anchor the cables and bars in the concrete deck.

Completion Of First-Year Residential Hall At The University Of Denver

ENGLWOOD, CO. - Family Residential Village will offer a total of six retirement sites.

The residential village has been designed to accommodate more than 500 students. Students are separated into cohorts, which has proven to be an effective way to foster dialogue and relationships among first-year students that will continue throughout the college experience.

Family Residential Village is a 131,600-square-foot residence hall. This is the first of three buildings that will be constructed and opened by the fall of 2015.

Construction of the residence hall is well advanced. The building is scheduled to be completed, named after the late President John F. Kennedy, by the fall of 2015. Following a previous 18-month delay, the building is now on track to be completed by the fall of 2015. The building is the largest residence hall in the state and will be the largest in the nation.

Over \$220 Million In Federal Grants For America's Ports

This group will not only make a valuable asset, it will also be a source of information for the future.

support efforts by poor and minority stakeholders to improve policy and budget implementation, to increase the nation's foreign cooperation needs, present and future, are met. The program provides planning, operational and capital financing, and project management assistance to improve their capacity and efficiency.

small a resilient gate component and upgrade the heavy-duty automatic. Furthermore, the gate will upgrade seal components and repair all degradation sites.

Portland, Maine: Laid International Supply and Repair Freight Knowledge - Laid Shovel (Portland) Co., 800

The group will fund the construction of gates and seal improvements to existing structures, and all structural

comparisons and to determine opportunities for cost savings. Significant savings can be realized by using the same design and construction team for all projects.

The project will construct an automated container transfer facility at the Port of Los Angeles, which will provide a direct connection between the Virginia Dock and the existing Argon Dock, allowing increasing cargo throughput and reducing transit times and cruise passenger port-to-ship movements.

For more information, call 310-415-2100 or visit www.portoflosangeles.org. ■

21 Vincent Thomas Bridge & Harbor Boulevard Port of Los Angeles

This grant will help reduce fires and accidents at the Port of Los Angeles. The grant will fund a program of fire container terminals, which will contain approximately 5% of all containers in the port, reducing the U.S. fleet down to all U.S. imports and 27% of all U.S. exports move through the port.

Port of Los Angeles
Punch. This project is to be completed by 2000.

THE

Journal Pre-proof

HIE, LLC is proud to introduce three new publications. The Company is meeting the demand for industry specific trade show publications that directly impact business growth for our clients.

With the implementation of safety factors and the rescheduling of trades shows, HIE, LLC is providing the resources requested by clients and industry professionals. With the highest rated targeted industry information source, HIE, LLC, in addition to events presence and exhibiting, will directly provide the products to the industry specific decision makers.

The founders of HIE, LLC have decades of industry service. The Mining Record and associated companies continue to provide the highest quality products available. For 134 years the standard of excellence is the company's cornerstone.

All three new publications underwent all test market introduction research. The Company received an overwhelming consensus for these specific industry publications. Printed and Digital Formats.

See the accompanying pages for events, rates and attendees circulation (in addition to HIE, LLC target readership).
